DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 6/13/06 has been entered.

Information Disclosure Statement

2. The information disclosure statement (IDS) submitted on 6/13/06 and 6/29/06 are considered.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 50-120 are rejected under 35 U.S.C. 103(a) as being unpatentable over Jacobson (4,545,374) in view of American V. Mueller (Neurosurgical instrument, page 989). Jacobson disclose all the limitations of the claims (fig. 7) except for a handle as claimed. American V. Mueller disclose a handle as claimed (fig. 9). It would have been obvious to one having ordinary skill in the art at the time the invention was made to

employ a handle in view of American V. Mueller into Jacobson's device in order to provide a gripping portion conforming to surgeon's palm/hand.
